

**Promethean  
Activinspire  
Presentation**

*by: Mark Boivin*

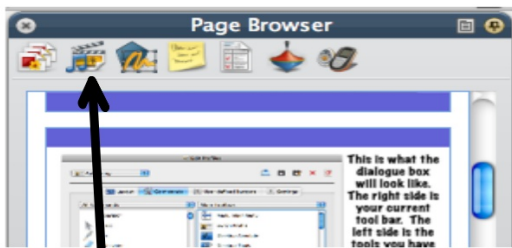

A graphic illustration of a stage scene. At the top, several black stage lights with glowing yellow interiors are suspended from a rig. Below them, the text "Making your own Page" is centered in a bold, yellow, sans-serif font. At the bottom, two overlapping, light gray oval spotlights illuminate the dark gray floor. The entire scene is framed by a blue border at the top and bottom.

# Making your own Page

## How to Get a Background

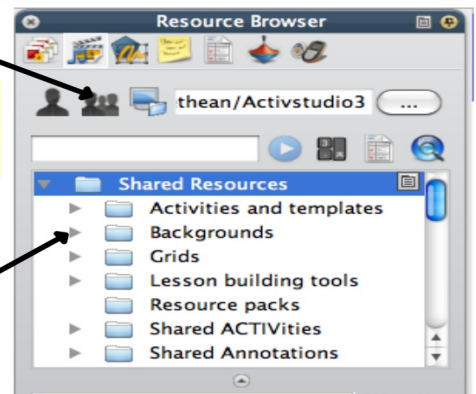

**#1**

*Click this button on your Page Browser to open your resources*

**#2**

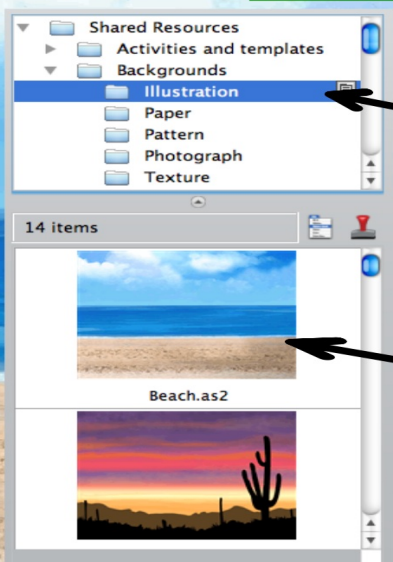

*Click this button to get your resource*

**#3**

*Click on triangle to open your Backgrounds*

## How to Get a Background

#4

*Click on one of the folders and the backgrounds will appear below.*

#5

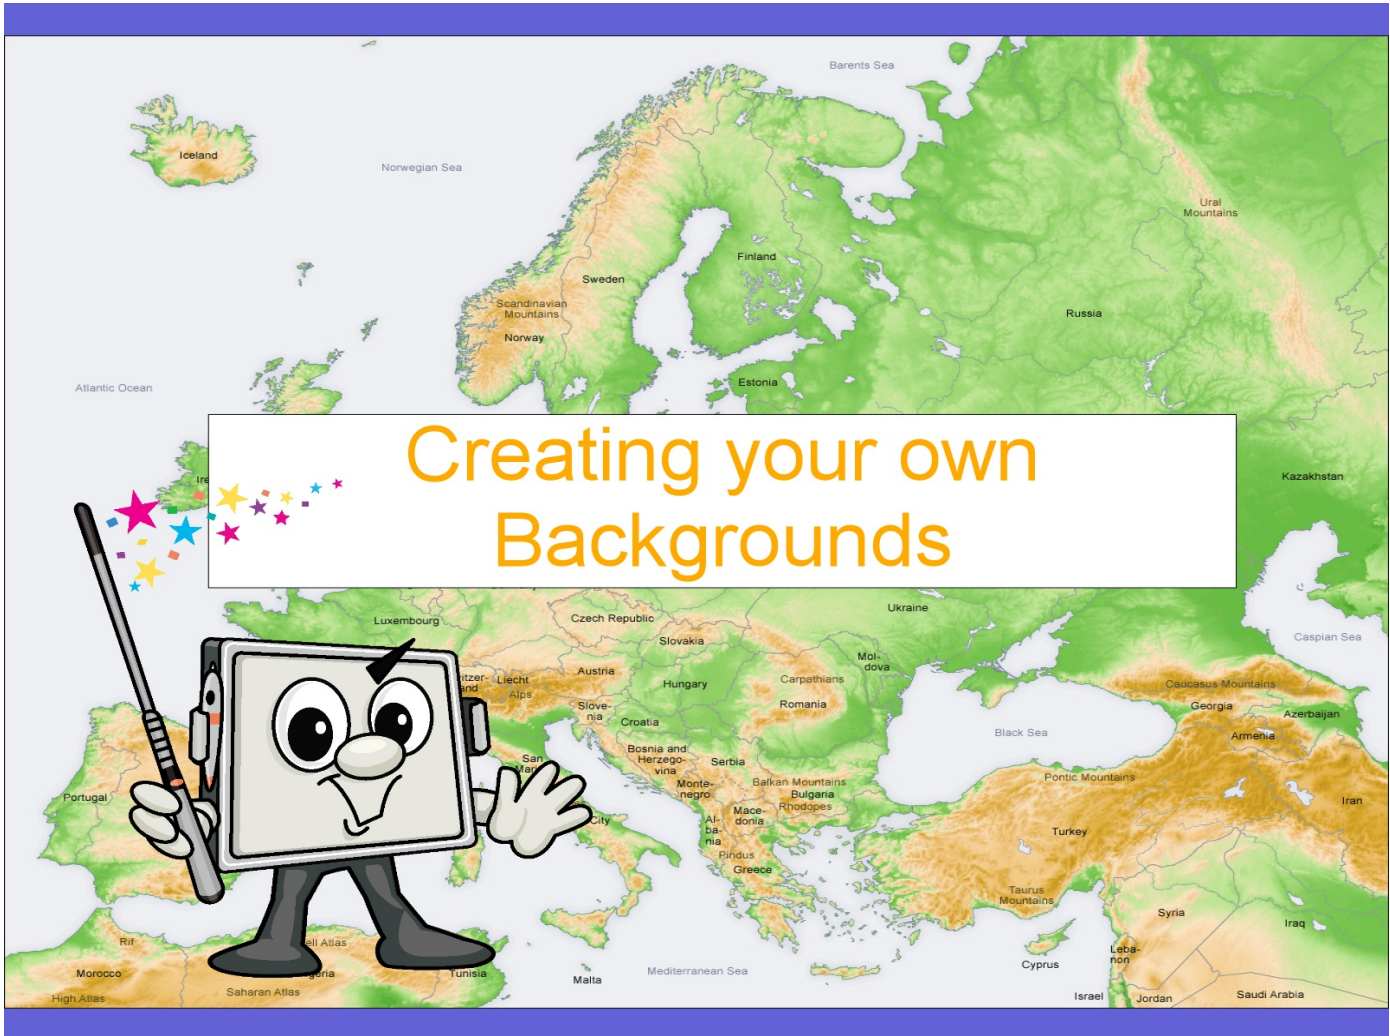

*Scroll to a background that you like. **DOUBLE** Click on the background and it appears on your page.*

Download new Resource  
Packs with Backgrounds.

**Information about this is on page 25+**

# Creating your own Backgrounds

1: Open a blank page, hold control key down and click mouse OR right click. Then select Set Background.

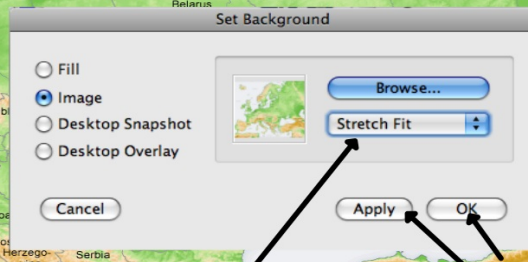

2: Choose "Image" and click Browse to find the image for your background.

3: Select Image and click open

4: Select what type of "fit" you want, select "apply" to see. If cool, click ok. The image should now be your background.

5: Open your resource library to the folder where you want to put the background. Click on the icons.

#1

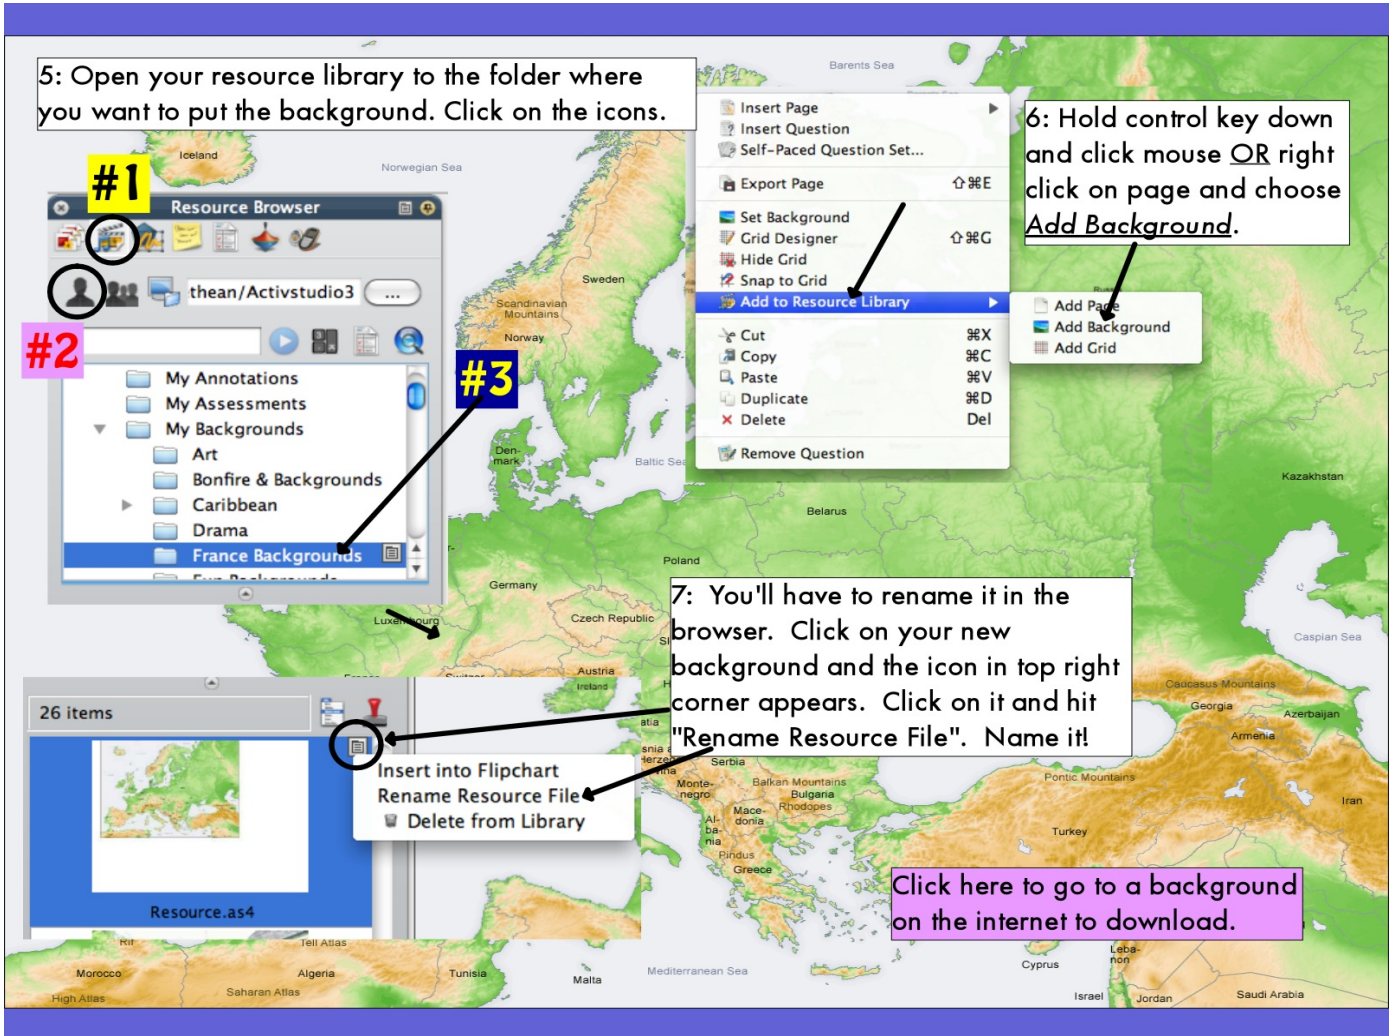

#2

#3

6: Hold control key down and click mouse OR right click on page and choose Add Background.

7: You'll have to rename it in the browser. Click on your new background and the icon in top right corner appears. Click on it and hit "Rename Resource File". Name it!

Click here to go to a background on the internet to download.

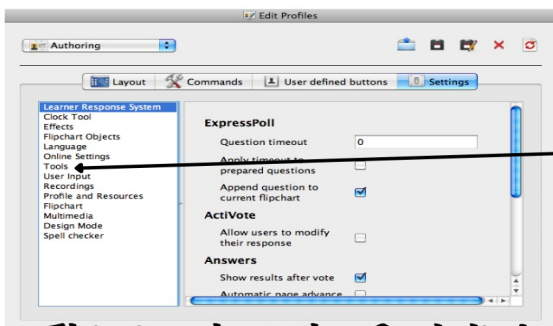

On the right is my "Tool Bar" ...  
you can *Customize* yours with  
what you need by clicking at top  
of screen (menu bar)...

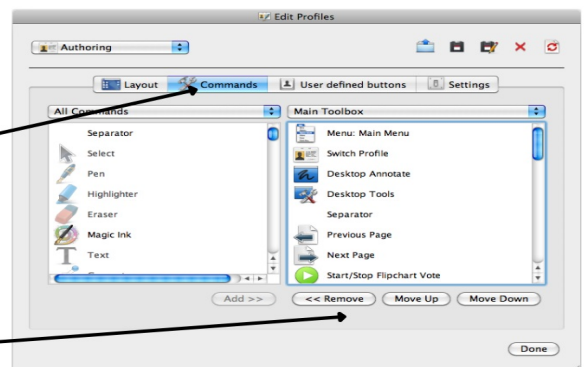

***Activinspire*** - ***Preferences*** - (you  
get a dialogue box) - ***Tools*** -  
(finally click button) - ***Commands***.  
This lets you put in new tools and  
take off ones you don't use. See  
next page for a visual.

**This is what the first dialogue box will look like. Click on the word "Tools"**

**This is what the 2nd dialogue box will look like when you click on the button "Commands". The right side is your current tool bar. The left side is the tools you have can chose. The buttons on the bottom let you add - remove - rearrange your current Tool Bar.**

*To make a text box for writing... click on the "T" then **CLICK** and **DRAG** the cursor across the screen. When you let up on your mouse button your box is ready to write in... it will say "Type Here" and look like this...*

 **When you're typing, notice it keeps going** 

**To adjust the SIZE of the text box...#1 click on the ARROW in the menu bar.**

 **When you're typing, notice it keeps going**   
    
 

**#2 - To adjust the SIZE of the text box... the circles form your area. If you grab any circle you can make the box larger or smaller. It moves your words as you change the size.**

## What each button does...

When  
you're  
typing,  
notice it  
keeps going

-  move text box
-  rotate text box
-  works like the EDIT in Menu Bar
-  can make it more TRANSLUCENT
-  grouping thing together
-  Layering - moves higher layer
-  Layering - moves lower layer
-  Duplicates exact text box
-  Makes Text Larger
-  Makes Text Smaller
-  gives cursor to let you type in box

At the top of the Flip Chart Page is a bar that lets you do other quick commands to your text when you're working in a text box mode.

To make SHAPES, LINES, ARROWS for your page, click on the "circled box"

What will appear on the right side of your screen is the "OBJECT Toolbox"

If you click on the circled spot MORE Objects will appear.

## The Key Objects to use when designing your page and how it works

colors

This square with an X is for when you want your shape to be transparent

**IMPORTANT:** Before you select a shape object to use, be sure to pick a **COLOR** or the **Transparent Square**

6

- 1 - MAKES STRAIGHT DIAGONAL LINES
- 2 - MAKES STRAIGHT HORIZONTAL LINES
- 3 - MAKES STRAIGHT VERTICAL LINES
- 4 - FOR FREEHAND DRAWING
- 5 - MAKES POLYGONS - DRAW - CLICK - DRAW - CLICK - ETC... WHEN YOU CLICK ON A VERTEX YOU HAVE DRAWN, IT MAKES YOUR POLYGON
- 6 - MAKES CURVES - SAME STEPS AS #5

## The Key Objects to use when designing your page and how it works

This is for making "ARROWS"

This is for making "Speech Bubble"

YOU CAN ADJUST THE SIZES OF EACH OBJECT BY CLICKING AND DRAGGING EITHER OF THE YELLOW SQUARES

To Put Images on your page there are 2 methods I use...

FIRST and MOST Important...  
Click on the ARROW to put on an image.

Method #1 - click and drag an image from the internet to the flipchart page

Method #2 - click on image, (edit-copy)  
click on the flipchart page, (edit-paste)

## Important Button

At the top-right of your flipchart page is a button called, "*Design Mode*". When the button is **BLUE** that means all action buttons work. When you are presenting be sure it is blue.

When you are designing a page with action, click on this button first (it will turn **RED**) and **NO ACTIONS** will work. You need this to edit and design your page.

## How to Connect Pages in your Flipchart

#1 - get an image

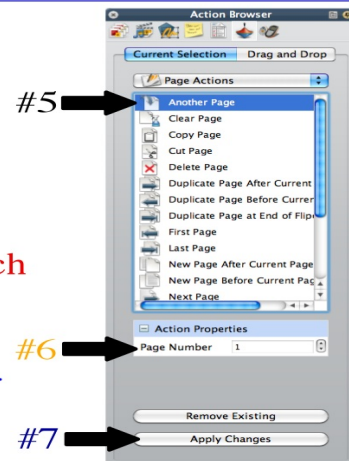

#2 - click on the image  
to make it active  
(circles on edges)

#3 - click on the icon which  
gives you ACTIONS.

#4 - pulldown the All  
Actions to "Page Actions".

#5

#6

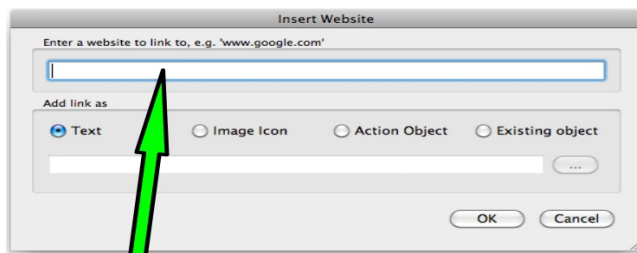

#7

#5 - click on Another Page  
#6 - put in the page number  
you want to connect to...  
#7 - click Apply Changes

## How to Connect to a Web Site

#1 - Pull down from **Insert** --- to **Link**--- to **Web Site...** and let up on mouse

#2 - This gives you this dialogue box. Type in or paste copy the website address that you want in top box.

#3 - choose one of 4 ways (*Text, Image Icon, Action Object, existing object*) to make an action to get to web site.

## How to Connect to a Web Site

<http://nfl.com> **Text** - gives you the actual web address

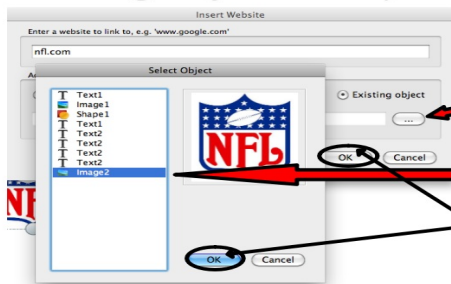

**Image Icon** - gives you the button shown on the left

**Action Object** - gives you a box shown on the left. If you drag this over words or a picture on your page it will act as the link to your website

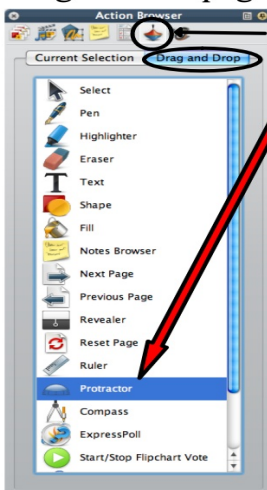

**Existing Object** - lets you make a picture the website link...

- #1 - click on image that will be the link
- #2 - Go through steps 1-3 from previous page
- #3 - click on this button to get Select Object screen
- #4 - your image should be highlighted, if not click on other images to find it
- #5 - you must hit **TWO** OK buttons to get it to work.

## How to Put Helpful Tools on your Page

Instead of using the tool bar or menu bar... you can put some tools that you use right on the page as an action button.

- #1 - Click on the object browser button.
- #2 - Click on the Drag and Drop button.
- #3 - Click on a Tool
- #4 - Drag it onto the page

*The tools that I find most useful for the math class are... Protractor - Ruler - Start/Stop Vote -*

*There are some other useful tools...  
Calculator - Dice Roller - Clock - Shape Recognition  
- Handwriting Recognition*

*BUT these we must connect to an object... next page  
for these*

## How to Put Helpful Tools on your Page

Some tools need you to create a button... here are the steps.

- #1** - Find an object you want to make as your button.
- #2** - Click on the object so the circles appear.

- #3** - Click on the object browser button.
- #4** - Click on the Current Selection button.
- #5** - Click on Command Actions

- #6** - Click on the TOOL you want to activate.
- #7** - Click Apply Changes
- #8** - The object will then get a square around it and it can be resized, bigger or smaller. The square disappears when you unclick the design button.

Adding Integers

You can now browse to find exactly what you want. The top tells how many selections.

#3

Adding Integers

adding integers

+Positive 1  
-Negative 1  
+ - 0

The sum of any number and its additive inverse (opposite) is zero.

Description  
This packet covers the use of counters to teach addition of integers with like signs and integers with different signs. There are definitions hidden at the bottom of some pages, just grab and drag to the sheet.

You can now see each page and get a description of the objective. If you like it hit the **DOWNLOAD** button. Right side of page.
